known as the Pearl Harbor navai board, with Admiral Barker presiding, has reis through, to make Father-in-Law assembled here to determine on plans for Spreckels admit that Miss Emma did the establishment of a naval station in this harbor of the Hawaiian Islands. The plans have been pretty fully matured and Congress has made an appropriation of \$150,000. But a recent report to the Navy Department states that some of the land desired has been planted with sugar cane, and the knowledge that the Government wanted the property has led to enhanced values. The reconvening of the board is for the purpose of considering new sites. There is no doubt from the high figures at which the hand is held that the Government will have to resert to condemnation proceedings to secure the station desired.
